Over 30 papers cover the research and application of electronic publishing. The papers were presented at the 5th International Conference on Electronic Publishing, held in Canterbury, UK, 2001. Selected Contemporary Issues in the Law of the Sea Clive R. Symmons, 2011-06-09 Drawing on papers presented at Trinity College, Dublin, in 2010, Selected Contemporary Issues in the Law of the Sea provides a cohesive discussion on various challenges involved with the law of the sea. International experts cover topics such as straight baselines, high seas/EEZ jurisdiction, the definition of, and jurisdiction over, piracy and submissions to the CLCS relating to outer continental shelf claims in disputed areas. In addition, Selected Contemporary Issues in the Law of the Sea delves into topics seemingly neglected in contemporary literature. The permissible use of artificial constructions as basepoints is discussed, for example, as are human rights issues involved in boarding non-flag ships; and in the context of piracy, issues such as the Japanese and NGO (Greenpeace) attitudes to current interventions (so-called 'eco-piracy') by NGO ships to prevent Japanese whaling activities in Antarctic waters.

This technology allows for much more efficient computing by centralizing storage, memory, processing, and bandwidth Cloud computing consists of shared computing resources that are virtualized and accessed as a service, through an API. Clean, Green and Responsible? Gabriel Eweje,Ralph J. Bathurst,2019-07-22 New Zealand and Australia are broadly considered to be countries in which sustainability and responsibility discourses are being pursued by governments and business alike, and in which incentives and initiatives are helping confront and overcome sustainability-related challenges. This book takes a closer look behind and beyond the marketing mantras of both Australia's and New Zealand's "clean and green" campaigns and, on the basis of representative examples and cases, critically evaluates the status quo. The book assesses the effectiveness of sustainability and responsibility models with a focus on the South Pacific and argues that the ways in which issues have been dealt with in this more closely defined geographical region are most likely a good indicator of how similar issues are (or soon will be) dealt with around the globe. As such, the book offers a rich source of cases on sustainability and responsibility in the business arena, a critical review, and an inspirational affirmation of responsible business practice.

Submission Michel Houellebecq,2016-09-08 As the 2022 French Presidential election looms, two candidates emerge as favourites: Marine Le Pen of the Front National, and the charismatic Muhammed Ben Abbes of the growing Muslim Fraternity. Forming a controversial alliance with the political left to block the Front National's alarming ascendancy, Ben Abbes sweeps to power, and overnight the country is transformed. This proves to be the death knell of French secularism, as Islamic law comes into force: women are veiled, polygamy is encouraged and, for our narrator François - misanthropic, middle-aged and alienated - life is set on a new course. Submission is a devastating satire, comic and melancholy by turns, and a profound meditation on faith and meaning in Western society.

Principles of Gender-specific Medicine Marianne J. Legato,John P.
