Susanne Schröter

Gender and Islam in Southeast Asia Susanne Schröter, 2013 The volume is the first comprehensive compilation of texts on gender constructions, normative gender orders and their religious legitimizations, as well as current gender policies in Islamic Southeast Asia, which besides the Islamic core countries of Malaysia and Indonesia also comprises southern Thailand and Mindanao (the Philippines). The authors trace the impact of national development programmes, modernization, globalization, and political conflicts on the local and national gender regimes in the twentieth century, and elaborate on the consequences of the revitalization of a conservative type of Islam. The book, thus, elucidates the boundary lines of cultural and political processes of negotiation related to state, society, and community. It employs a broad analytical framework, offers rich empirical data and gives new insights into current debates on gender and Islam. Contributors include Nelly van Doorn-Harder, Farish A. Noor, Siti Musdah Mulia, Amporn Marddent, Maila Stivens, Alexander Horstmann, Amina Rasul-Bernardo, Monika Arnez, Susanne Schröter, Nurul Ilmi Idrus, Vivienne S.M. Angeles and Birte Brecht-Drouart.

The potential of oil palm and forest plantations for carbon sequestration on degraded land in Indonesia - Syahrudin, 2005-07-05 Plant biomass represents a sink for atmospheric carbon dioxide, which is one of the most important greenhouse gases and which is assumed to contribute more than half of the global warming. Establishing tree plantations or perennial crops on degraded land is an effective way to reduce atmospheric carbon by building up terrestrial carbon stocks, not only in the living biomass, but also in the soil. By converting *Imperata cylindrica* grassland into tree plantations (*Acacia mangium* or oil palm), aboveground biomass carbon can be increased about 20-fold and belowground biomass carbon up to 8-fold, while soil carbon can almost be doubled.

Unlocking the Clubhouse Jane Margolis, Allan Fisher, 2002 Looks at the gender gap that exists in computer science.

Epidemiology of Sleep Kenneth L. Lichstein, H. Heath Durrence, Brant W. Riedel, Daniel J. Taylor, Andrew J. Bush, 2013-06-17 What is the prevalence of insomnia in a particular age group, in men and women, or in Caucasians and African Americans? What is the average total sleep time among normal sleepers among these groups? How does the sleep of Caucasians and African Americans differ? These are just some of the questions addressed in *The Epidemiology of Sleep*. This new book presents the most detailed and comprehensive archive of normal and abnormal sleep patterns. Based on a

landmark study supported by the National Institute on Aging, 772 subjects from a host of populations including men, women, and various age and ethnic groups, prepared detailed sleep diaries for a two-week period. The use of these sleep diaries yielded a plethora of data on such characteristics as normal sleep patterns, various forms of insomnia, fatigue, depression, anxiety, and daytime sleepiness differentiated by age, sex, and ethnicity. The results generated by these data, charted in the book's numerous tables and graphs, provide a critical methodological advance in the sleep literature. The *Epidemiology of Sleep* opens with an overview of the rationale and unique characteristics of the study. This is followed by a comprehensive review of the existing epidemiological literature on sleep. Chapter three presents a detailed description of the methods used in the survey followed by meticulous information on the epidemiology of normal and insomnia sleep, that is unparalleled in the literature. Chapter six provides an archive of sleep patterns among African Americans. The book concludes with a discussion and interpretation of the most interesting findings. This insightful study, coupled with the comprehensive review of the existing literature on the epidemiology of sleep, make this volume an invaluable resource for sleep researchers, clinicians, health and clinical psychologists, gerontologists, epidemiologists, and advanced students.

Ultrasound in the Intensive Care Unit Matthew Jankowich, Eric Gartman, 2014-10-16 *Ultrasound in the Intensive Care Unit* explores the current state of evidence supporting use of bedside ultrasound for procedural guidance and for the critical care-focused assessment of a variety of organ systems. This text covers standard practice areas, such as ultrasound guidance for vascular access in the ICU, as well as novel, less well-known applications such as the use of ultrasound for assessment of diaphragm function in patients with respiratory failure. As current ultrasound education is often dependent on widely varying local expertise, this book serves as a standard reference in what is at present a fragmented and challenging field of study for busy clinicians. By providing a comprehensive overview of the current state of critical care ultrasonography, with content contributed by experts in the field, this text will serve as a valuable resource that will allow education in critical care ultrasound to keep pace with the rapid technological growth that has driven this vital area of critical care medicine. *Ultrasound in the Intensive Care Unit* is essential reading for pulmonologists, practitioners in internal, hospitalist, and critical care medicine; educators and instructors in critical care ultrasound; and medical students, residents, and critical care trainees.

Cork Oak Woodlands on the Edge James Aronson, João Santos Pereira, Juli G. Pausas, 2012-09-26 Cork oak has historically been an important species in the western Mediterranean—ecologically as a canopy or “framework” tree in natural woodlands, and culturally as an economically valuable resource that underpins local economies. Both the natural woodlands and the derived cultural systems are experiencing rapid change, and whether or not they are resilient enough to adapt to that change is an open question. *Cork Oak Woodlands on the Edge* provides a synthesis of the most up-to-date, scientific, and practical information on the management of cork oak woodlands and the cultural systems that depend on cork oak. In

addition, Cork Oak Woodlands on the Edge offers ten site profiles written by local experts that present an in-depth vision of cork oak woodlands across a range of biophysical, historical, and cultural contexts, with sixteen pages of full-color photos that illustrate the tree, agro-silvopastoral systems, products, resident biodiversity, and more. Cork Oak Woodlands on the Edge is an important book for anyone interested in the future of cork oak woodlands, or in the management of cultural landscapes and their associated land-use systems. In a changing world full of risks and surprises, it represents an excellent example of a multidisciplinary and holistic approach to studying, managing, and restoring an ecosystem, and will serve as a guide for other studies of this kind.

Atlas of Dermatology, Dermatopathology and Venereology Bruce Smoller, Nooshin Bagherani, 2021-10-07 Bringing together thousands of the best dermatologic clinical and pathological photographs and figures from researchers and scientists around the world, this volume focuses on the most prevalent dermatologic disorders as they relate to cutaneous infectious and neoplastic conditions and procedural dermatology. It includes atypical presentations of various disorders, giving insight into differential diagnoses, helping to familiarize the reader with some of the rarest dermatologic disorders. Atlas of Dermatology, Dermatopathology and Venereology Volume 3 is written for dermatologists, dermatopathologists, and residents and summarizes data regarding any dermatologic disorder and syndrome. Each entry includes an introduction, clinical and pathological manifestations, diagnosis, differential diagnosis, and treatment and prognosis.

Voice and Silence in Organizations Jerald Greenberg, Marissa S. Edwards, 2009-01-07 Are employees encouraged to speak up or to pipe down? Do they share ideas openly or do they remain silent in ways that are hurtful to individuals and harmful to the functioning of their organizations? This collection of 12 essays addresses these and related issues from a variety of scholarly perspectives.

students and instructors.

Library Crime and Security Alan Jay Lincoln, Carol Zall Lincoln, 2019-12-06 This book, first published in 1987, focuses on the patterns of library crime and disruption in Great Britain, Canada, and the United States. In addition to important data on these problems, there is extensive information on the characteristics of the institutions and the communities in which they are found. The impact of crime on the institution and the individual is examined. The authors present vital insights into the design of crime control programs in libraries of varying sizes that have or anticipate problems with crime such as book theft, vandalism, problem patrons, and attacks against staff. Major issues in the measurement, incidence, and consequences of crime are included, as well as relevant materials from the fields of library science, management, criminology, victimology, and security. An extensive security checklist is included that can serve as a guide for making the library a safer and more secure setting for staff, patrons, and contents.

Pedophilia and Sexual Offending Against Children Michael C. Seto, 2018-07 This authoritative and comprehensive second edition summarizes and integrates advances in assessing and treating pedophilia and preventing sexual offending against children. It synthesizes current research and offers evidence-based recommendations for practice and policy reform.

Psychiatric Drugs in Children and Adolescents Manfred Gerlach, Andreas Warnke, Laurence Greenhill, 2014-06-26 This book offers a comprehensive survey of the current state of knowledge in the field of neuro-psychopharmacology in childhood and adolescence. In the first part, the essentials of neuro-psychopharmacology are presented in order to provide a deeper understanding of the principles and particularities in the pharmacotherapy of children and adolescents. This part includes information on neurotransmitters and signal transduction pathways, molecular brain structures as targets for psychiatric drugs, characteristics of psychopharmacological therapy in children and adolescents, ontogenetic influences on pharmacokinetics and pharmacodynamics, and pharmacotherapy in the outpatient setting. The part on classes of psychiatric medications, which covers antidepressants, antipsychotics, anxiolytics and sedative-hypnotics, mood stabilizers, and psychostimulants and other drugs used in the treatment of attention-deficit/hyperactivity disorder, provides sufficient background material to better understand how psychoactive drugs work, and why, when, and for whom they should be used.

For each drug within a class, information on its mechanisms of action, clinical pharmacology, indications, dosages, and cognate issues are reviewed. In the third part, the disorder-specific and symptom-oriented medication is described and discerningly evaluated from a practical point of view, providing physicians with precise instructions on how to proceed. *Psychiatric Drugs in Children and Adolescents* includes numerous tables, figures and illustrations and offers a valuable reference work for child and adolescent psychiatrists and psychotherapists, pediatricians, general practitioners, psychologists, and nursing staff, as well as teachers.

Identity and the Modern Organization Caroline A. Bartel, Steven Blader, Amy Wrzesniewski, 2007-02-22 Identity and the Modern Organization presents a lively exchange of ideas among psychology and management scholars on the realities of modern organizational life and their effect on the identities that organizations and their members cultivate. This book bridges the domains of psychology and management to facilitate a multi-disciplinary, multi-level

Measuring Knowledge Management in the Business Sector Organisation for Economic Co-operation and Development, Statistics Canada, 2003 Knowledge management involves any activity related to the capture, use and sharing of knowledge by an organisation. Evidence shows that these practices are being used more and more frequently and that their impact on innovation and other aspects of corporate performance is far from negligible. Today, there is a recognition of the need to understand and to measure the activity of knowledge management so that organisations can be more efficient and governments can develop policies to promote these benefits. This book offers a synthetic view of the results of the first systematic international survey on knowledge management carried out by national statistical offices in Canada, Denmark, France and Germany.

Whole-grain Foods in Health and Disease Len Marquart, Joanne L. Slavin, R. Gary Fulcher, 2002 This resource provides a broad-based foundation of knowledge about whole-grains, including the latest information on health benefits and disease prevention resulting from consumption of whole-grains as well as information on consumer knowledge, attitudes, and behaviors toward whole-grain foods.

The Active Australia Survey, 2003-01-01 This manual is designed to provide an overview of a survey that could be used to measure participation in leisure-time physical activity and assess the response to information extolling the benefits of increased activity for good health. Contains copy of survey and instructions for interviewing and implementation and more.

Mentalizing in the Development and Treatment of Attachment Trauma Jon G Allen, 2018-03-08 This book brings together the latest knowledge from attachment research and neuroscience to provide a new approach to treating trauma for therapists from different professional disciplines and diverse theoretical backgrounds. The field of trauma suffers from fragmentation as brands of therapy proliferate in relation to a multiplicity of psychiatric disorders. This fragmentation calls for a fresh clinical approach to treating trauma. Pinpointing at once the problem and potential solution, the author places the

experience of being psychologically alone in unbearable emotional states at the heart of trauma in attachment relationships. This trauma results from a failure of mentalizing, that is, empathic attunement to emotional distress. Psychotherapy offers an opportunity for healing by restoring mentalizing, that is, fostering psychological attunement in the context of secure attachment relationships-in the psychotherapy relationship and in other attachment relationships. The book gives a unique overview of common attachment patterns in childhood and adulthood, setting the stage for understanding attachment trauma, which is most conspicuous in maltreatment but also more subtly evident in early and repeated failures of attunement in attachment relationships.

The Handbook of Industrial Innovation Mark Dodgson, Roy Rothwell, 1994 Industrial innovation is vital to national and corporate competitiveness - understanding its nature, determinants and consequences is a key task of managers, public policy makers and students of industry. This reference offers contributions from experts on a range of issues concerning innovation.
