**Let's Talk About Pep** Sandy Denton, 2008-08-26 From Sandy “Pepa” Denton—rap legend and outspoken star of VH1’s smash-hit reality show—comes the juicy tell-all in which she talks about sex, music, life, love, fame, and so much more. The spiciest ingredient in the legendary rap group Salt-N-Pepa, fans know Sandy Denton as Pep, or Pepa, the fun-loving half of Salt-N-Pepa. But behind the laughs and the smiles is a whole lot of pain, and for the first time in Let’s talk About Pep, she candidly talks about her troubled childhood, surviving abuse, her first encounters with Cheryl “Salt” James, instant success, her failed marriages and escape from domestic abuse, and her triumphant comeback on reality shows like The Surreal Life and The Salt-N-Pepa Show. Filled with surprising insights, outrageous anecdotes, and celebrity cameos—including Queen Latifah, Martin Lawrence, Janice Dickinson, Missy Elliott, L.L. Cool J, Ron Jeremy, Lisa “Left Eye” Lopez, and many others—Let’s Talk About Pep offers a fascinating glimpse behind the fame, family, failures, and success...and into the faithful heart of a woman who will always treasure the good friends she found along the way. Every bit as captivating and provocative as her Grammy Award-winning music, this story reveals the real Pepa—upfront, uncensored, unstoppable—a true pioneer, survivor, and inspiration to women everywhere.

Dafidi and Abdul Joe Ordia, Joe Ordia Joe Ordia, 2009-11 Dafidi and Abdul met in high school and they developed a strong friendship almost immediately. Though one is Jewish and the other Arab, they did not let their ethnic differences get in the way. They attended Boston College where they both played basketball; with Dafidi leading BC to the national playoffs. Then, Abdul was stricken with renal failure and discovered that he needed a kidney transplant. Dafidi was tested and he was a perfect match with Abdul. He offered to donate a kidney after the championship game. But, just prior to the big game, Abdul took a turn for the worse, and Dafidi had to make a decision: forsake his friend, or forgo the championship and save his friend. The decision was easy for Dafidi. He calmly declared, There are things in life that are more important than basketball. Dafidi was dressed for the championship game, but no one really expected him to play, having donated a kidney only one week earlier. A technical foul was called against Louisville with the score tied and only two seconds to go and Dafidi was called to take the shot. Would Dafidi save the day and the game? According to religious scholar Thomas Henshaw, This book is really about the expression of God's love through the friendship between Dafidi and Abdul.

Gauthier's experiences not only shaped her hair but also brought her astounding insight into the nature of her personal struggle with vanity and the search for perfection. She begins her story with excerpts from her daily journal that led to her epiphany that she had self-image issues, marking the beginning of her recovery from the vanity that had strangled her for years. She recalls seasons of hair changes and relates them to the pathways of an evolving spiritual life, from her early school days through two marriages and finally motherhood. Most every woman alive has a hair story and will relate to Gauthier's stories about hair and our emotional attachment to it.

**On Purpose** Karen James, 2015-09-28 A witty, insightful guide to rediscovering Purpose and leading like you mean it On Purpose is a modern-day business book for those who want to steer their work — and life — back on course. When your head and heart connect in both, our humanity becomes the hero in the story. Shed the mediocrity that comes from halfhearted decision-making, and rediscover your PLOT — Purpose, Leadership, Operations, and Technology — as you learn to live and lead with purpose. This insightful guide provides a framework for re-evaluating your direction, then stepping back and re-aiming the ship. It starts with a fable that illustrates just how businesses lose their PLOT every day, then digs down to the nitty-gritty to give you the actionable steps and practical advice you need to climb out of the rut. Deliberately ironic and witty, this book presents a fun, but informative read that is anything but cynical. You'll learn from the author's own successes using PLOT in her career, as she turned a \$9M business into a \$100M business and went on to drive international and domestic philanthropic ventures and leadership training programmes. PLOT will become the most practical four-letter word you'll ever use. This book shows you how a simple framework can become the turnaround your organisation and life so desperately need. Get your work on target Shift engagement methods for better results Leverage technology into a purposeful tool Get up and act You may already have a documented vision and mission statement, but that's no longer sufficient. You need to act and lead with purpose, every day, in every decision you make. You need to recognise and utilise good people and tools, and redefine your goals to make them worth striving for. On Purpose shows you how, and gives you the practical, tested guidance you need to start moving in the right direction.

Renew! Shawna Coppola, 2023-10-10 When was the last time you shook up your writing instruction? In Renew!: Become a Better and More Authentic Writing Teacher, author Shawna Coppola builds on the premise that our students are ever-changing, and so is our collective knowledge base. Instructional strategies that have worked in the past may need to evolve accordingly. Coppola guides K-8 writing teachers with a three-part framework for Rethinking, Revising, and Renewing their approaches and finding new energy along the way. Using the framework, Renew! examines the most pervasive educational practices in writing instruction and poses questions that guide teachers to revise those practices to ensure they are effective for all students. Coppola believes the work is challenging, yet critical, referencing R. Buckminster Fuller's Knowledge Doubling Curve: According to Fuller's paradigm, the amount of time it takes for us to increase our collective knowledge base by 100 percent will continue to shrink the older we get. If this is true or even close to being true show can we, as educators, ever feel satisfied with teaching our students the same concepts, using the same methodologies and practices, that we have in the past? The book offers a road map for renewing key aspects of our practice, including: How we teach the writing process: Over time and frequent usage, some of our favorite teaching strategies can become rigid. Coppola gives a candid account of how her enthusiasm for the writing process as an undergraduate led her to teach writing for years as a set of pre-determined steps. Now she teaches that there are many variations of the writing process and many twists and turns along the path. One foundational strategy used is opening up her own process as a writer and her writer's notebooks to students and encouraging them to think and talk about their process with classmates. What we mean by Writing: Coppola argues that drawing isn't an accompaniment to writing; it is writing. It's another form of composition through which students can tell stories, convey ideas, and engage readers. The book is full of visual compositions by students as well as Shawna's wonderfully simple and evocative sketches from her writer's notebook. The tools we use to teach writing: The most ubiquitous tools used to teach writing from anchor charts to graphic organizers to sentence starters etc. tend to be teacher-centric rather than student-centric. Renew! invites students into the process of constructing tools that are meaningful and helpful to them. The book includes a range of examples of tools built collaboratively with students. How we assess and evaluate student writing: Coppola draws a distinction between assessments which should be an interactive conversation with students and evaluation, which is about judging and categorizing what students know and can do. Renew! offers a range of examples and resources that illustrate effective feedback for student writers, including online videos of teacher-student and

peer-to-peer conferences. Renew! also offers ideas for how teachers can nurture their own writing lives and thus reinvigorate their instructional practice. Through rethinking, revising, and renewing their practice, teachers can not only strengthen students' skills as writers, but also nurture students to become critical thinkers, problem solvers, and risk-takers in the classroom and in our rapidly changing world.

The result is exclusive, in-depth interviews and profiles of every key figure at City, and the inside stories on the decisions that have shaped the team, including the defensive transformation that saw Guardiola change his goalkeeper and full-backs ahead of his record-breaking 100-point season of 2017-18; the dinner date with Sergio Agüero that changed the course of the City striker's career; and close-ups on every big game in the thrilling finale to the 2018-19 title race.

It has been mentioned that most young people in the United States of America do not know anything about saving or making money unless they come from a business oriented family who is familiar with the accounting, management, and investment processes. However, I came to find out that many young people deemed that they could save money in their little piggy bank jars or in a personal bank account that their parents had assigned to them. What they don't know is a strategy to

help them save and stick to their guns to break the bad habit of spending for no reason learn to purchase what they need instead of what they want. This book provides a new strategy on how to save money and simple easy to follow instructions that can help teens and adults alike.
